PROJECTS AND WORK EXPERIENCE

Capstone Project(Ongoing): IAP Portal for TIET

This project is aimed at developing a website for the Industrial Attachment Program that allows efficient communication between the students, mentors and the faculty. It also includes AI/ML features like Plagiarism Check, Auto Scoring & Text Summarization. Technologies used: HTML, CSS, JavaScript, Python, Deep Learning

Project: Optical Character Recognition Model

This project is aimed at training a deep learning model to identify the digits from images which could further be extended into daily use applications. Technologies used: Python, Convolutional Neural Networks

Project: Billing and Stock Keeping System

This project aims to ease out the billing process of a firm by automating the backend calculations while simultaneously storing the data safely for later retrieval and analysis while also keeping a record of the stock of various commodities being sold by the firm. Technologies Used: Python, Tkinter, PostgreSQL.

Graduate Aptitude Test in Engineering (GATE 2022)- CS

Qualified in Pre Final Year Attempt

Technoshala Internship

Unilever Industries Private Limited(June 2022- July 2022)

- Period: 2 months
- Stipend: INR 40000
- Project Internship

Winner : Code for Good Hackathon 2022
